Stonegate Pub Company Ltd works to ensure that the ingredient information in this table is accurate. Allergy data detailed in the table has been derived from specifications obtained from the suppliers of the products.

Whilst we have taken all reasonable steps to ensure that this table is accurate, we cannot guarantee that the product is 100% free from the unintentional presence of allergens arising as a result of cross-contamination.

Drinks which have a 'tick' include ingredients with this allergen intentionally present.

Drinks which have an 'M' include ingredient(s) which are produced in a factory with this allergen present and our suppliers believe there is a significant risk of cross contamination (May Contain).

Due to the seasonal nature of wine products; harvest variation and vintage changes can mean that the allergens in wines have the potential to change throughout the year and from one vintage to the next, it is recommended to always check the bottle.

Stonegate Pub Company Ltd works to ensure that the ingredient information in this table is accurate. Allergy data detailed in the table has been derived from specifications obtained from the suppliers of the products.

Whilst we have taken all reasonable steps to ensure that this table is accurate, we cannot guarantee that the product is 100% free from the unintentional presence of allergens arising as a result of cross-contamination.

Drinks which have a 'tick' include ingredients with this allergen intentionally present.

Drinks which have an 'M' include ingredient(s) which are produced in a factory with this allergen present and our suppliers believe there is a significant risk of cross contamination (May Contain).
